Testimonial

“What an extraordinary week in the red centre! I have taken numerous photos, but they pale in comparison to the actual beauty that surrounded us. The Anangu people are a testament to the power of tradition and

resilience. Their connection to the land is something we can all learn from, especially in this age of disconnection. This journey has been nothing short of life-changing, and I am filled with gratitude for the opportunity to connect with the land and with each other. I would like to express my appreciation to Jane Anderson-Dixon from Sage Drums Tasmania for facilitating this humbling adventure. I am excited to see where this experience will lead us all on our paths of self-discovery and growth.” Helen Halee, September 2024

"We did the base walk with Jane on a frosty July morning. Jane is a most magnificent guide, full of knowledge and presence. She seamlessly facilitated the logistics of the trek around Uluru, whilst also conveying the wonder and awe of the Indigenous stories. It was clear that Jane has a great respect for the Anangu. She invited us to journey with her into being present in the moment and for that we are deeply grateful. It made for a memorable and moving first encounter with Uluru. For a wonderful blend of wisdom and insight, we highly recommend Jane as a guide." Trip Advisor Review for SEIT Tours

SEIT Uluru Trek, August 2024

"The Red Centre Retreat with Jane was both a journey into the centre of my heart and into the soul of this ancient land. I appreciated the weaving in of spaces for

silence, sacredness and deep reflection around equally powerful times of deep wisdom and learning. Jane's understanding and sharing of the Anangu Creation Stories was respectful and honoring of the traditional elders and owners of the knowledge. Jane's authenticity, vulnerability and acceptance of each and every one of

us, allowed me to open my heart even more fully and to be immersed in the experience at a transformative level.

I absolutely loved every minute, including the unscripted, unplanned adventures that beckoned me further into surprising new depths of emotion and spiritual growth. I highly recommend Jane as your guide on your next trip or trail. The container she holds for everyone is safe, loving and supportive. Thank you Jane." Mel Craven 2024
